Important Message

Bills may be paid by mail or to an authorized agent. Payment to others is at your own risk. For online payment options and authorized pay locations, please visit us at <https://www.aepohio.com/account/bills/pay/>, select "Pay Bill" from your mobile app, or call us at 1-800-672-2231. Customers who are hearing impaired may call 1-800-617-1234 (TDD/TTY).

We offer several ways for you to pay your bill. In addition to paying in person or by mail, you may receive and pay your bill electronically (e-Bill) or have your payments deducted automatically from your checking or savings account.

Definitions:

Actual: Reflects that a reading was taken from your meter.

Estimate: Reflects that we were unable to read your meter this month. We calculated your bill based on prior usage and seasonal variations. You can choose to call us with an actual meter read at 1-800-672-2231.

Kilowatt-hour (kWh): The unit measure for the electricity you use. For example, you use one kWh of electricity to light a 100-watt light bulb for 10 hours.

Customer Charge: The fixed monthly basic distribution charge to partially cover costs for billing, meter reading, service line maintenance and equipment.

Late Payment Charge: (if applicable) A late charge is added to the overdue amount of the regulated portion of your bill if you do not pay your bill within seven (7) days of the due date. The amount of the late charge is one and one-half percent (1.5%) of the total AEP Ohio amount billed.

Standard Service Offer: When customers purchase generation through AEP Ohio's auction process and not through a supplier.

Generation Service or Supply: Charges associated with the production of electricity.

Purchased Power Agreement Rider (PPA): The PPA allows AEP Ohio to collect or pass back the difference between total costs and revenues associated with a specific purchase power agreement.

Transmission Service: Charge for moving high-voltage electricity from a generation facility to the distribution station of the local electric utility. Transmission charges show under the delivery portion of the bill.

Distribution Service: Charge for use of local wires, transformers, substations and other equipment used to deliver electricity to your home/business. Distribution charges show under the delivery portion of the bill.

Deferred Asset Phase-In Rider (DAPIR): Recovers previously incurred deferrals for distribution assets.

Delivery: The graph on the first page shows charges associated with moving electricity through transmission lines and distribution lines as well as costs to maintain those lines and other distribution costs.

Non-jurisdictional charge: Charges for services that do not meet the definition of "retail electric service". Retail Electric Services are services involved in supplying or arranging for the supply of electricity to ultimate customer from the point of generation to the point of consumption. These charges are presented on your bill separate from your supply, transmission services and distribution service charges. Non-jurisdictional charges are excluded from the amount due to avoid disconnection if a disconnect noticed is received.
